

# 1. Select Service Information then Access

# 2. Enter the make, model, year

# 3. Service Manuals, Body Repair

ACDelco Technical Delivery System is General Motors' service information, diagnostics, and service programming portal to the automotive aftermarket. We share a common goal with you about delivering the best services possible to our customers. The offerings available through this portal are established to satisfy your varied business needs.

**SUBSCRIPTIONS**  
Accurate and efficient vehicle diagnosis and repair is a corner stone for any vehicle repair facility. ACDelco Technical Delivery System has multiple subscription offerings to fit your service and diagnostic vehicle repair needs. Service information gives you access to all documentation for repairing General Motors' manufactured vehicles. Diagnostics enable you to communicate with General Motors vehicles. Service programming enables you to update module calibrations. To assure proper software functionality, please assure your computer hardware meets our system requirements.

**My Subscriptions**  
Manage, renew, and view your subscriptions here. To view subscriptions history, go to My Orders.
