Step 2.

J2534 intro

Hyundai | Global Service Way

Welcome to Hyundai J2534!

Programming Area

What is J2534

A single set of programming hardware consists of personal computer(PC), standard interface to a device driver and an interface hardware that connects between PC and a programmable ECU of vehicle. The main purpose of this regulation is to program ECUs for all vehicles using a single set in the field.

Validated Device :

| Device | Manufacturers | API |
|---------------------------|----------------------------|------|
| Sun PassThru Pro | Snap-on Technologies, Inc. | 4.04 |
| Cardaq Plus | Drew Technologies | 4.04 |
| AEZ Flasher | AE Tools | 4.04 |
| Universal Reprogrammer II | EASE Diagnostics | 4.04 |

* API, DLL and Firmware version may be controlled by the device manufacturer
Contact the manufacturer if you are unable to find the version listed above "CarDAQ Plus" was tested/verified on all Hyundai engine management systems. The following devices were tested/verified with all except MELCO engine management systems: (ES6510, Sun PassThru Pro, PassThru-XS)

Software/Hardware Specification

* Software
Operating System : Window 2000 , XP, Vista or later
Web Browser : Internet Explorer 6.0 or later

* Hardware
Internet Connection : High speed(DSL, Cable Modem, T1, etc) Internet Connection
Available HDD Space : 100Mbyte or above
Memory : 128 Mbyte or above

Step 3.

Download programme

Welcome to Hyundai J2534!
Programming Area

NOTE

Some vehicles need an additional power supply.

[Click here for detail](#)

CAUTION

During the ECU reprogram, observe the following precautions.
Failure to follow these precautions may result in ECU damage.

- 1) DO NOT run any other programs other than the J2534 application.
- 2) DO NOT disturb or disconnect the DLC cable or interface cable.
- 3) DO NOT turn the device OFF.
- 4) DO NOT turn the ignition key to the OFF position.
- 5) DO NOT start the engine.
- 6) DO NOT operate any electrical accessories. (climate control, lighting, audio, etc.)

In case of failure of J2534 upgrade, please, contact below address.

- 1) J2534 program does not operate : ics@gitauto.com
- 2) Upgrade has failed and there is below failure message.

j2534 failure

* Program Details

- File Name: Setup.exe
- Version: 2.01.08
- Date Published: 04/25/2024
- Language: English
- Download Size: 15.3 MB

* Downloading J2534 Application

1. Click "Run" in the two installer windows that follow

2. Then, just follow the installer's simple instructions

Download

Step 4.

Extract file and install J2534
